We continue to grow and expand our clients list each year.

Place Of Business

Always delivering to customers orders on time.

Welcome...

Ottorose is one of the top clothing production companies in Romania.

Over the past twenty years, the fashion industry has undergone dramatic structural change. The major impulses behind the restructuring of the clothing industry have been changes in the patterns of consumer demand and international competition.

Consumer demand for clothing is increasingly lifestyle and aspiration ally driven. Well-informed customers with clear expectations want choice, quality value for money and variety.

Michael Lycourgou
CEO

About Us

We deal with designing and manufacturing women garments

Founded in the early 80's, Ottorose has been growing steadily over the years, now employing 350 people and a further 1000 people through our approved subcontractors. Originally based in North London the company moved its production and technical site to Romania in the 90's, seeking out a lower cost production base; We established Ottorose Rom SRL to take advantage of this country's long history in garment manufacturing and low cost within the EU.

Over the year, we have grown by continuously reinvesting the capital in the development of highly qualified personnel. We have also invested in modern technology and equipment which let us deliver high quality products to all of our customers.

Based 35 minutes from Bucharest in the city of Ploiesti centrally within the textile region, we established our factory in a 25,000 sqft building with modern offices, production & warehouse space.

Creativity and job satisfaction increase when there is a good working environment, which is what Ottorose created for their employees. Employers get regular feedback on their performance.

➤ Vision

We are currently delivering to our clients high standard services with the help of our highly trained employees and our vision is to maintain this achievement and furthermore to develop the company by increasing the production capacity and also the number of clients maintaining the same high standard services with promptitude, short lead times, competitive prices and passion.

➤ Mission

1 Reinvesting the capital in development of highly qualified personnel and modern technology and equipment.

3 Our good working environment let us manage to have short lead times and be promptitude for our clients.

2 Flexibility for our clients needs. We are succeeding to accomplish any request with passion, from the constantly changing market.

4 We fully understand our clients needs and requirements, that's why we can offer competitive prices.
